50 Hz

Industrial Range | VD Series

Diesel Generators

Output Ratings	
Generator Set Model	RT-50
Fuel - HSD	Prime
380 - 415V, 50Hz	50 kVA / 40 Kw

Ratings at 0.8 power factor

Definitions

Standby Rating

The Standby Power rating is only applicable for emergency and standby applications where the generator set serves as the back up to the normal utility source. In installations served by unreliable utility sources (where outages last longer or occur more frequently), where operation is likely to exceed 200 hours per year, the prime power rating should be applied. The Standby Power rating is only applicable for emergency and standby applications where the generator set serves as the back up to the normal utility source. (as defined in ISO 8528-3)

Prime Rating

These ratings are applicable for supplying continuous electrical power (at variable load) in lieu of commercially purchased power. There is no limitation to the annual hours of operation and this model can supply 10% overload power for 1 hour in 12 hours.

Standard Reference Conditions

Ratings in accordance with ISO 8528. All engine performance data based on the above mentioned maximum continuous ratings at Standard Reference Conditions 27°C Air Inlet Temp, 100 Mtrs. A.S.L. 30% relative humidity. Fuel Consumption data at full load with diesel fuel having specific gravity of 0.85 & confirming to BS2869: 1998, Class A2

Engine Technical Data

No. of Cylinders/Alignmen	t:	4 in Line
Cycle:		4 Stroke
Bore/Stroke: mm (in)		97.0 (3.8) / 128.0 (5.0)
Induction:		Turbo Charged
Cooling Method:		Coolant
Governing Type:		Mechanical
Frequency Regulation, no	Load to full load	A1
Frequency Regulation, S	teady State	ISO 8528 G1
Compression Ratio:		17.5:1
Displacement: I (cu.in):		3.8 (231.89)
Engine Power kW (BHP)		75.7
Air Cleaner Type		Dry Type
Engine Electrical System:		
	-Voltage/Ground	12/Negative
	-Battery Charger Amps	35/40
Piston Speed, m/sec (ft./	sec.)	6.4 (20.9)

Base Frame Heavy Duty Fabricated Steel
Canopy/ Acoustic Enclosure TATA

Circuit Breaker Type/Rating 3 Pole MCB

Engine RPM

Available Options

TATA offers a range of optional features to tailor our generating sets to meet your power needs. Options include:

- 1- Upgrade to trailer Mounted Dgset for our rental & Emergency Power supply to Customers
- 2- A wide range of Sound Attenuated Containers

Ratings and Performance Data

- 3- A variety of generating set control and synchronising panels
- 4- Additional alarms and shutdowns
- 5- A selection of exhaust silencer noise levels

For further information on all of the standard and optional features for this product please contact your local Dealer or write to us at marketing@rishabhengineering.com

Total Harmonic Content LL/LN:		<6.0%
Radio Interference:		Suppression is in line with European Standard EN61000-6
Radiant Heat: kW		
(Btu/min)	50 Hz	3.8 (216)

General Information

Documentation

A full set of operation and maintenance manuals and circuit wiring diagrams.

Generating Set Standards

The equipment meets the following standards: BS5000, ISO 8528, ISO 3046,

IEC 60034, NEMA MG-1.22. TATA is a fully accredited ISO 9001:2008 company.

Warranty

All equipment carries full manufacturer's warranty. Extended warranty terms available

Cooling System		
Ambient temperature, °C (°	F)	45 (113)
Engine jacket water capacity,	. L (gal.)	3 (0.79)
Radiator system capacity, in	ncluding engine, L (ga	18.5 (4.89)
